A few remarks on a whaling voyage from the
Sandwich Islands towards the coast of Japan

Friday April 18: 1823 weighed the anchor and steered
to the S.W. nothing remarkable occurred until the 3 of
May when we saw Baker Island bearing W by N 15 miles
Distance stood in for the land and sent the boats on
shore for wood at noon the boats returned with wood
and fish found the Lat^t 19° 23' N Long 166° 48' 30" W
the 6th employed in getting wood saw a great quantity of
beach-wood round the shore the 7th & 8th steered to
the N.W. Thursday the 8th saw a large sperm Whale going quick
to the Southward saw nothing more remarkable until
the 14 of May when we saw a large Whale and got it

Lat^t 25° 10' N Long 164° 20' E

May the 25th got two large Whales in Lat^t 28° 40' N Long 162° E

Sunday May 26 saw Whale in Lat^t 28° 50'

Saturday May 27 saw Whale in Lat^t 28° 59' N Long 161° 54' E

Sunday June 1 spoke the ships Ocean & Atlantic both
Whaling ships June the 3rd saw a large Whale Lat^t 28° 23'

Long 158 East June the 5 Lat^t 28° 00' Long 157° 30'
saw Whales going quick to the S.E.

June the 6 saw a school of whales got one large Whale
and a small one in Lat^t 27° 37' Monday June the 7 saw
a large whale and got it Lat^t 27° 30'

Wednesday June the 11th spoke the Atlantic and Ocean
in Lat^t 27° 55' Long 152° 50' East

Friday 12th saw Whale in Lat^t 27° 50' Long 152° 30' E
got 4 40 lbs. each

June 14th 20th and 21st saw a Whale got one it being
very mugged and repugnant

Tuesday June 24 Saw 2 Large Whales struck it
but parting the line it went off

Friday July 4th in Lat 32 Long 153 saw whale and got
5 small Whales July 6th got 20 Large Whales

July 8th got 2 Large Whales in Lat 32-58

July 10th got 2 Large Whales with one boat stove

Sunday July 13 spoke the W^m Roach of Bedford
saw the Swift in Co^{rs} but did not speak with her
in Lat 33 10 Long 154-05 2

July 19 in Lat 33-30 saw 2 shoal of Whales got 5

July 24 got 20 Large Whales and 2 stove boat in Lat
33 20 Long 158-30 East

Powers celestial whose protection
ever gained the virtuous fair
While in distant clime I wander
Let my Mary be your care

July the 30th saw 20 great many fin back Whales in
Lat 33 30 Long 162-15

August 1st in Lat 34 = 40 and Long 163 50 2 spoke the
Stonington Mary

August the 5th saw Whale and got one in Lat 34-20
Long 165-40

August the 7th in Lat 36 00 Long 168 got two
large Whales

August 12 and 13 saw Whale going quick to the Eastward
wind at East blowing strong and a rough sea on

Lat 35 20 Long 170 00 00

August 15 and 16 saw whales Lat 36 50 Strong
gale and rough

August 24th got a small whale in Latth 38-20 Long 168-28
 August 25th saw a Large Whale in Latth 38-45 Long 169-208
 August 30 spoke the Thames of New Haven and Alliance
 of New Bedford
 August 31 spoke the Golden Farmer and Eagle of
 Nantucket Latth 35 40 Long 177
 Sept 2nd saw a Large Whale and got it Latth 36-50
 Sept 5th spoke the George and Susan of N Bedford
 the 7 got a boat from her Latth 36 50
 Sept 10th spoke the Maria of N Bedford Latth 37-25
 Sept 11 12 13 and 14 saw a great many Whales going
 quick got 5 small ones Latth 34-50 Long 166 West
 Sept 15 spoke the Enterprise and Phoenix of Nantucket
 Sept 21 Entered partnership with the Franklin
 Sept 22 23 and 24 saw Large Whales and got 3
 Latth 33-15 Sept 26 at 9 in the evening the Franklin
 Spoke the Emulation

Let her form so fair and faultless

Fair and faultless as your own

Let my Marys kindred spirit

Draw your choicest influence down

Oct 10th saw Cybee bearing South 50 miles distance

Oct 16 anchored at Moruee

Oct 29 left Moruee at steered for Wahoo

Oct 30 and 31 lay off and on at Wahoo to get the news

Make the breeze your waft around her

Soft & peaceful as her breast

Breazing in the breeze that fans her

Smooth her bosom in to rest

- November headed to the Southward saw two
sail to mind near
- Nov 5 in Lat 13 20 Long 158 18 saw a whale
of whales and got 2 cut them in and commenced
boiling
- Novem 8 saw a whale and got 3 in Lat 10 20
and Long 158 00 by Lunar Obs
- Novem 13 saw a number of large whale going
quickly it being very squally
- Novem 15 saw 3 large whale going quick to the
Eastward Lat 8 9
- Novem 16-17-18 19 and 20 saw a great many birds of various
kinds Lat 3 24 North Long 157 30 West
- Novem the 21 saw Sloop and Sloop at anchor
the boat went on shore found a ship at anchor
in the harbour called the General Gates met with
a good reception from her Capt and Officers
at 4 PM the boat returned and steered for
Washington Island
- Novem 22 made the the land found it to be a
small Island covered with wood with a great surf
breaking so that we could not land Monday 23 lay
off and on Monday the 24 steered to the Northward
and left the land without seeing Lat 5 2 North
Long 160 3
- December the 9 cross the Line in Long 159 58 S
- Decem the 12 saw a whale and got 4 in
Lat 2 20 South Long 150 19
- Decem the 26 and 27 saw a great many whale got 2 and
cut them in

Decr the 30 saw Whale and got 3 at noon saw the
Falcon of Bunker with 1200 Lat 152 S Long 160 20 50
January 1 1821 Saw 2 shoals of Whale going quick
to the mainland Lat 2 00 S Long 160 10

Guardian angels protect her
While in distance ^{climber} I roam

To valms unknown the fate guides me
Make her bosome still my home

from the 1st to 20 of January saw nothing remarkable
recrossed the Line and steared for Fanning Island
having no wood on board

January 21 saw the Island the 22 = 23 and 24 employed
in get wood from the shore at 6 PM steared
to the South ward with fine pleasant weather

Jan 26 Saw 1 large Whale struck it but found it
on the decline Traced the skin Lat 2 = 16 Long

February the 6 saw 2 shoals of Whale got one Lat 2 20
Long 162 45 50

February 13 the crossed the Line to the Northward

February 16 Saw Fanning Island bearing N by E 15 miles
Distance steared in for the Land spoke with the
Falcon laying off and on for wood and Water
the ship Lyra of New Bedford in the harbour
coasting her oil

Febr 17 equally the 18 steared to the Northward
for the Sandwich Islands

March the 7 saw the Land bearing N by E 40
40 mile dist the 8th and 9 Light breeze on the
10 anchored of the harbour at the Island of
Norpo on the 11 Light winds at West
took the anchor and ran into the harbour

March the 24 got ready for sea on the 28
6 blacks left the ship which detained us 19 days
to get men
April the 14 got all on board and put to sea
passed between Warhoo and Stori or steered to the
Northward
April the 28 in Lat. 28-30 & Long 156 30 saw
Sperm Whale going quick to the Westward
from the 28 of April to the 4 of June saw nothing
remarkable except a few hump backs this day
spoke with the Ship Adams of Hunted at
June the 4 saw a school of Whales got a Large one
the 9 saw a Large Whale going to the Southward
the 10 saw a school and got 3 small whales
the 11 saw a number of schools struck a Large
Whale from the bow from one and parted the line
from the other one going to the Southward the other
to the Northward the one going to the South died
and we took it alongside on the 14 saw the dead
Whale saved the Line and 50 bls of oil from it
these Whales were got between the Lat of 33 and 34 &
Long 144 and 142 West
From the 14 of June saw nothing remarkable until
the 6 of July when we spoke the ship Peragon
saw a Large Whale and got it Lat 36 & Long 146 30 S
which determined our going for home
The following is a few remarks
on our passage

July 13th made sail with the wind at ESE steered
SE from the 14th to the 23rd strong breeze and equally
from East to NE on the 24th in Lat. 19 27 Long 133 10
had a strong gail at NE have too broken the main topmast
sent down the top gallant rigging and took in the boats
the 25th more moderate the 26 27 and 28 strong trade
from the NE on the 28 in Lat. 13 00 Long 130 30 W
at 2 PM came on to blow a heavy gail from North
to NE the 29 more moderate wind at ESE steered
SE 00 ends the month with light breeze and rain
from the Eastward

August the 1st 1824 in Lat. 9 53 N Long 130 40 W
Light breeze Calms squalls and rain and so on to the
8 in Lat. 6 26 Long 129 00 saw a school of Whales put
off and got 2 of 12 bl. each

Aug 12 in Lat. 4 16 N Long 128 00 saw a school of Whales
and got one here began the NE trade winds on the 16th
crossed the line in Long 130 46 N found a strong current
setting to the Westward wind veering from SE to East on
Lat 7 00 S Long 133 W found the current setting more
to the Southward and running more moderate

From the 16th to the 29 of August fine pleasant
Weather in Lat. 15 00 saw a great many birds
after passing the Lat. of 19 S Long 132 40 W the wind
veering more to the Northward set steering N by E

August the 30th in Lat. 21 50 S Long 130 W the wind
changed suddenly to the Southward with plenty of
rain on the 31st saw Pitt Cairn's Island bearing

North by East distance 20 miles (wind S by W)
Sept 1 the Island bearing South the wind at N by W at 11
a boat came from the shore with 11 of the natives
in it on the 2nd and 3rd got wood and again on the 4th
PM steered to the Eastward wind at north

Sept. 14th Sailed to the Eastward with Southerly Wind
on the 8th saw a shoal of S.W. Plate mine at S.W. and thick
weather Lat 26 50 Long 123-40
From the 8 to the 24th light breezes from S.W. to N.W. steered S.E.
Sept 24th strong gale from the Eastward in Lat 40-2 Long 106-1
Sept 25 fresh Gale and Cloudy Course S.E. by E. more

from NW and ESE latter part wind
at SE made all sail and steared SE
saw a number of small vessels Lat 39 00

December 25 Commences with fine breeze from
SE & steared SE & East & saw a large
Prize steaming at W Middle part strong breeze
and clear steared SE & at 6 PM at 6 PM at 6 PM
at midnight wind changed to NW steared NW
saw a number of small vessels Lat 40 45

Lat from 64 to 74 SC

December 26 Commenced with light breeze
at 5 AM in Black Blot bearing for St
own & Pilot Boat making Tonnage
at 6 took Pilot Calm at midnight
the wind changed to N.E. and blow strong
Latter part light breeze and calm at noon
Gay head bore N.E. Distance 12 miles Lat by 45:14
And so ends this voyage. Guess 80

It was on the 9 of May my boys
from Saffican set out
On board the Old Magnolia
To go and cruise for whales

We leave our wives and children. Dear
If fortune should but smile
Then will go on the Southern Ground
And get a load of oil

Altho we leave our dearest wives
We bid them all adieu
But we shall not forget them
While Bird Island is in view

The wind ⁴ and blow from N.E.
and heavy squall came on
Then into heady harbour went
For to avoid the storm

5
It was on one Thursday afternoon
The wind at East did blow
We took the anchor to the bow
And to the pond did go

6
It was on the 15 day of May
Our Capt did declare
That we must go to sea that day
The wind it being fair

7
May God protect the Schooner
Her officers and crew

While she is going down I Whaling
To plough the ocean through

8
The wind sprang up from E N E
A blow & pleasant breeze

Away through gullholes hole we steered
To plough the raging seas

9
We had not been but two days out
Twas to our great surprise
at 7 in the morning

Some finbacks did arise

10
It was on one Sunday morning
Just as the sun did rise
A shoal of black fish did appear
and took us in surprise

11
wee lowered. Down our boats may lay
With all our little crews
And cut off that ^{great} number
So did not get but two.

12
It was on the 1st of June my boat
Just as the sun arose
I men from our main boat
Did cry out their voice blown.

13
Our Capt cried that side may lay
And his pleasant sound
I am very sure they are sperm whale
Towards us they are bound.

14
Our Capt says get ready
With both our boat and crews
Then we will lower away our boat
And see what we can do.

15
we pulled away side for the whales
Until we came so nigh
Then up jump the old harpooners
And let his Iron fly.

16
The mate cried out that is well done
Then forward did advance
And then cried out Come lay me on
I'll kill her with my lance.

17
We got one Whale to catch the boat
And then we did begin
To tow our Whale on board my boys
That we might cut them in
18

But just as we had got them in
The wind began to blow
We was forced to leave our rebel too
Into the gulf did go
19

When we had got them all triced out
Just as we was before
Our Capt says look sharp all round
We are ready for some more
20

We cruised untill the 9th of June
But nothing could we get
At length we saw a school of whale
That breacher very high
21

Our Capt says come lower away
And after them we will run
And if we can come up with them
We'll give them a Death blow
22

When we had fastened to our Whale
To windward they did run
By some mishap our Irons Iron
We did not get but one

23
We took our Whal in tow my boys
We could not get the rest
We cut her in contently
And thought it for the best

24
It was early the next morning
Another shoal did rise
We then did call all hands my boys
Which made them rub their eyes

25
We then shaked down our fires
As other Whalersmen do
Then lowered away our boat my boys
And from the shoal got two

26
and when our Whales they were both dead
The wind began to blow
Before we had them half cut in
We had to let them go

27
And when we had them all triced out
It grieved our lads full sore
The number of the barrels
Was only thirty four

28
It was on the 6th day of July
So pleasant was the weather
It was right as term we did apply
A shoal of Whales together

The fastest to a large Whale
 It was dreadful to relate
 At first she stove the Capt Boat
 And then she stove the Mates

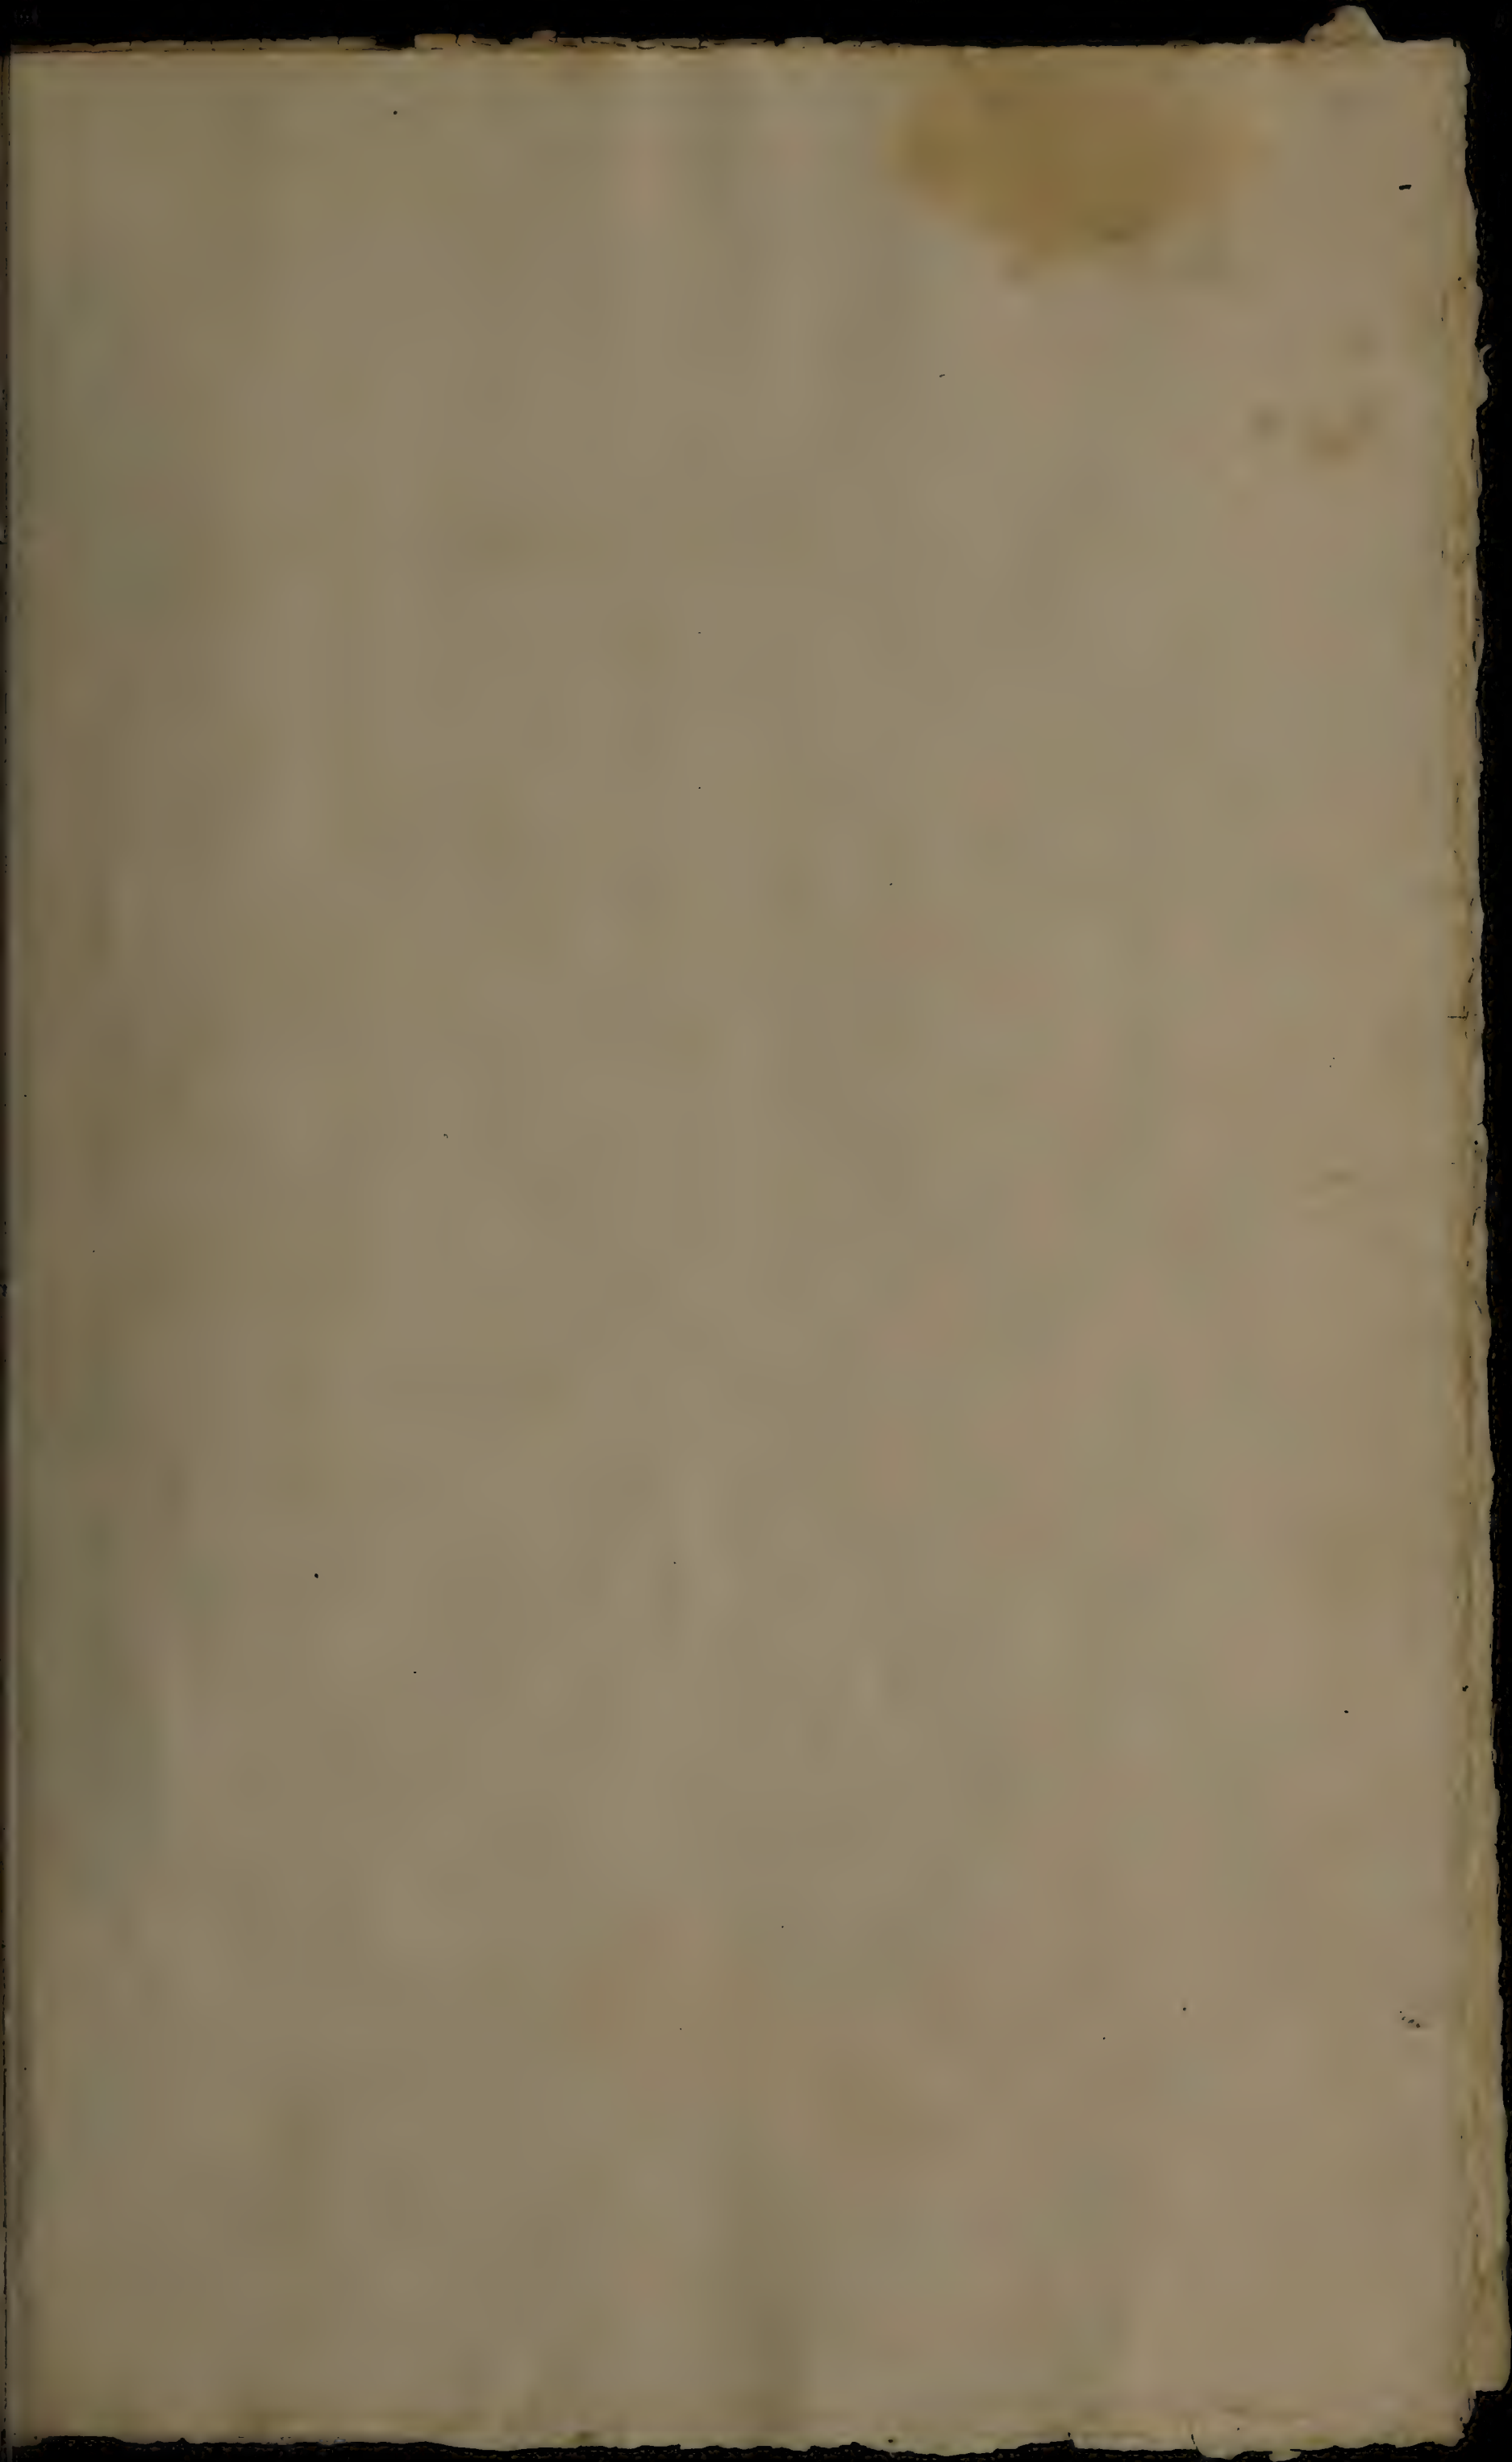

We took our boats upon the Cranes
 The Whale was still in sight
 We could not dare to let him go
 We did not think it right

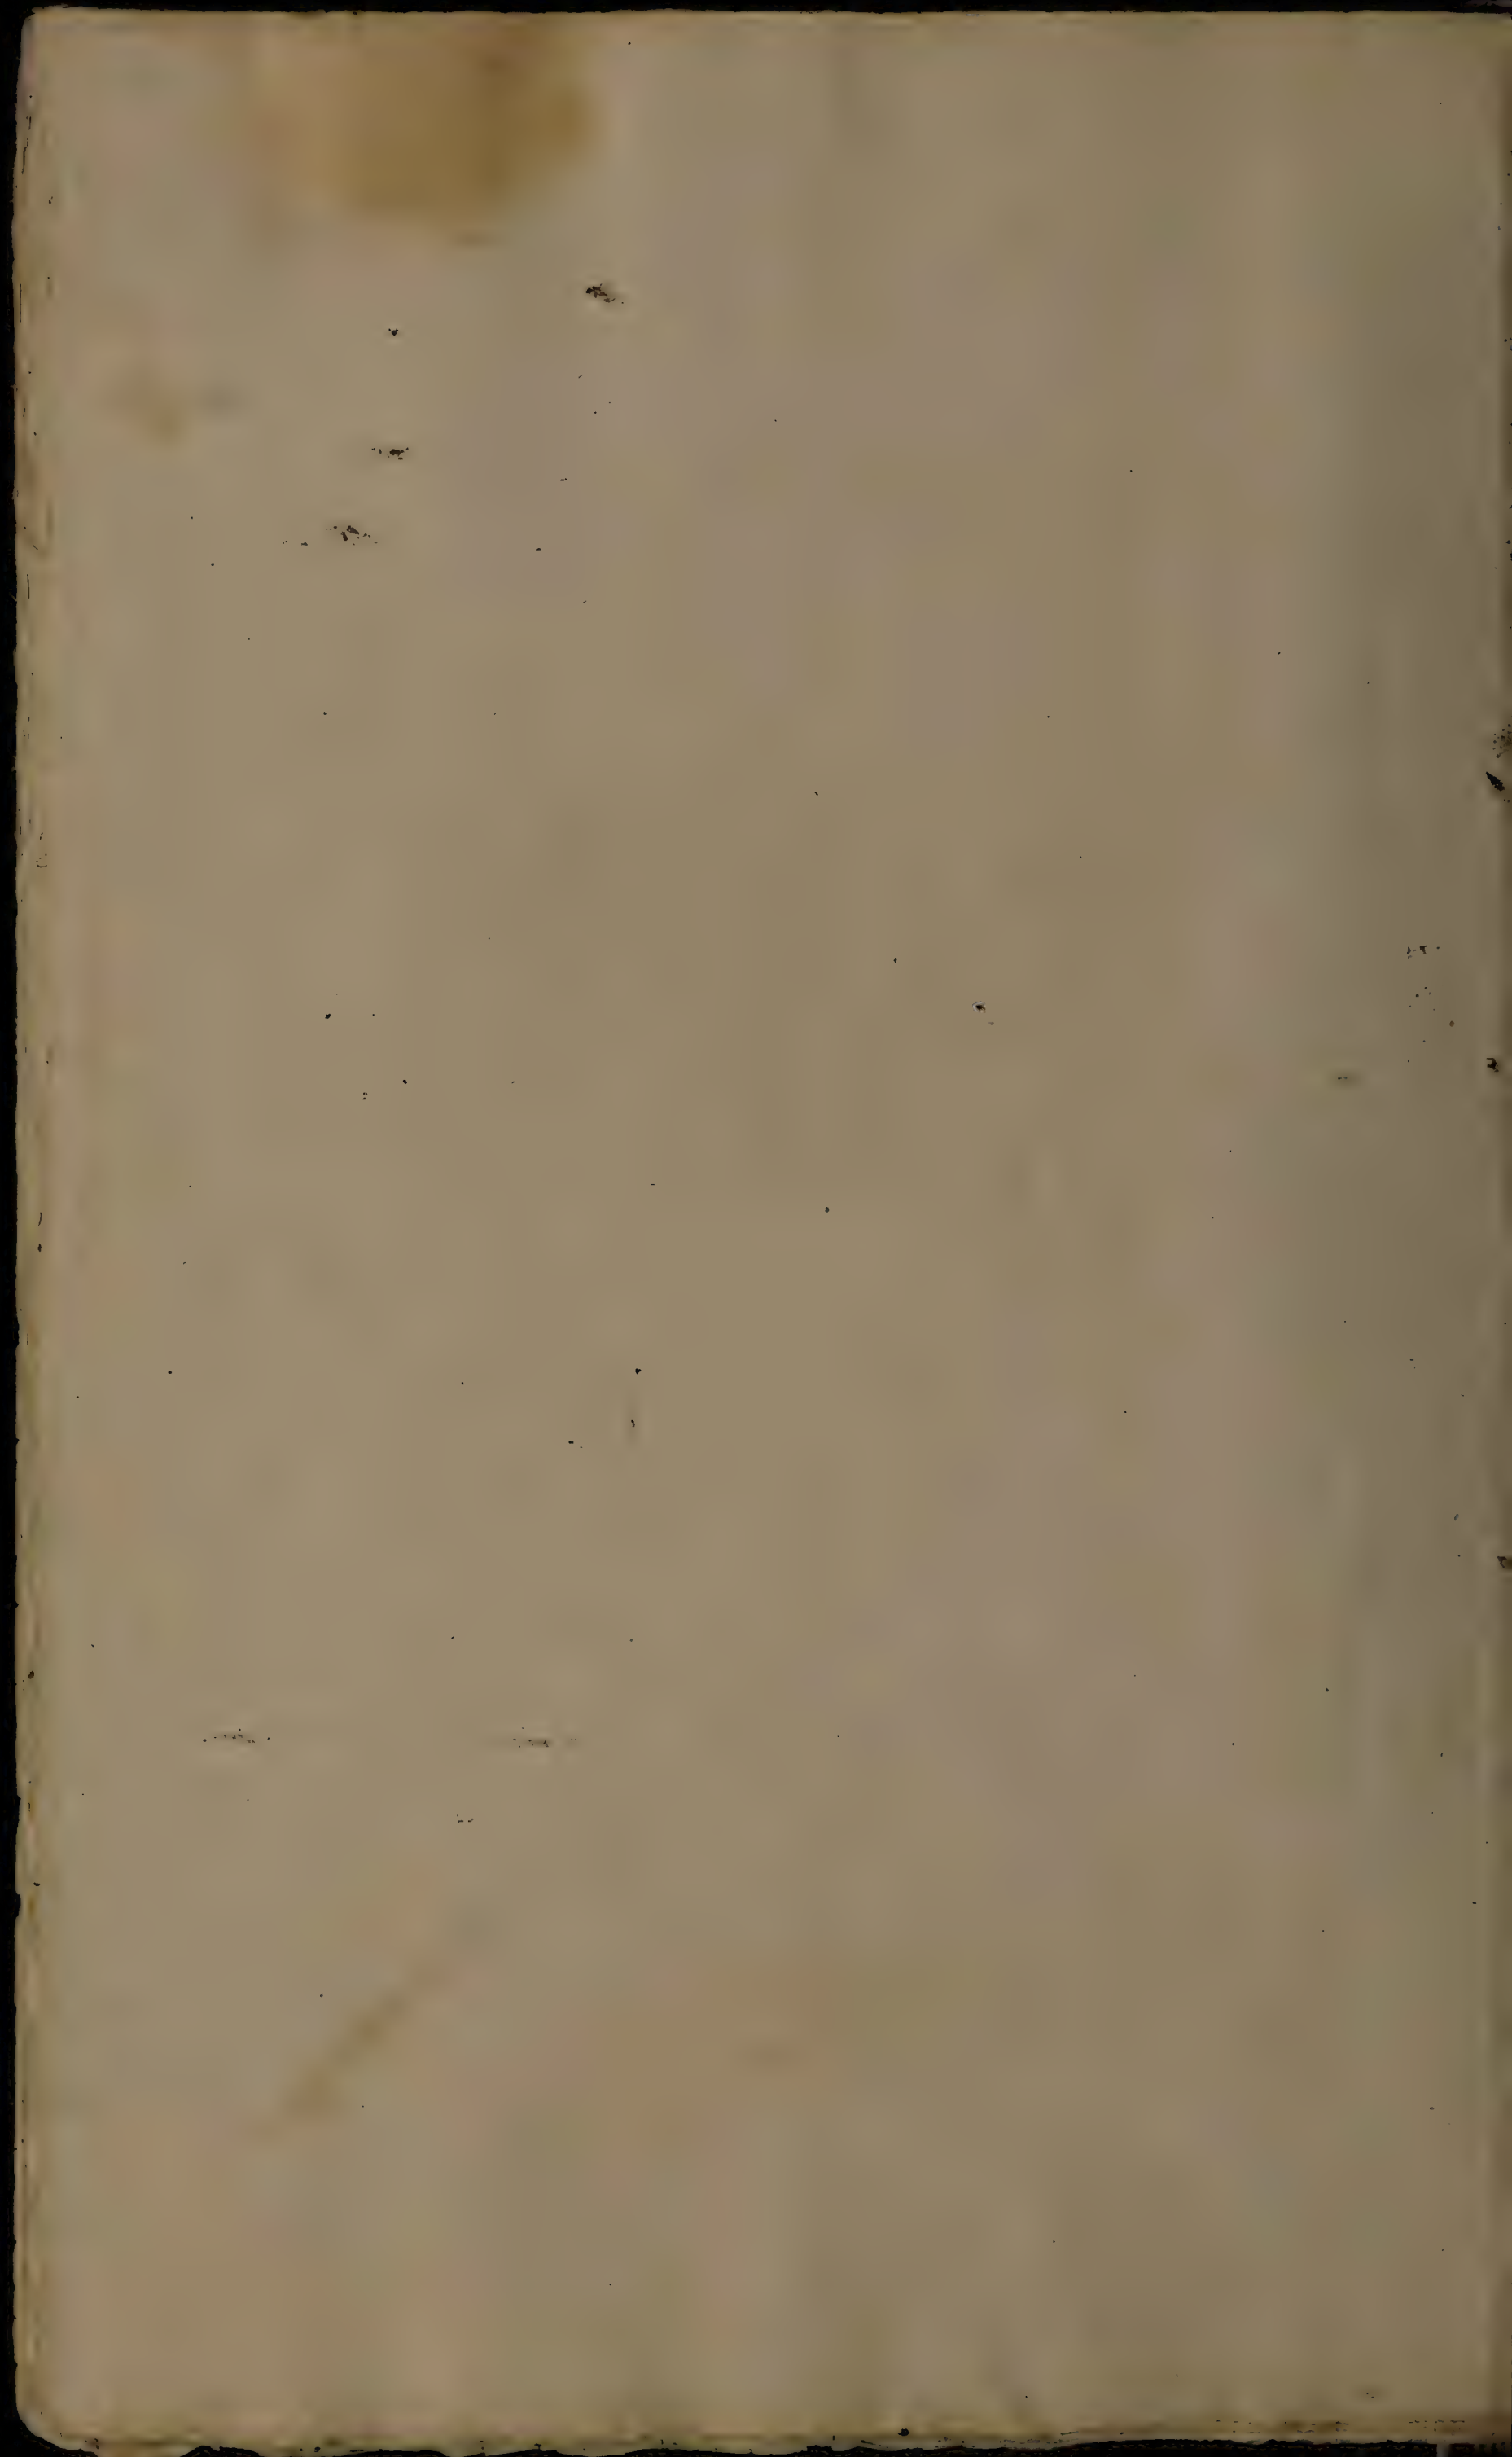

We thought 3^d if we could get that whale
 We would see our Wives much sooner
 But had no Boats to fight him with
 We drove him with the schooner

at 11th the Day I was 108 35 30
 22 37 Day 9 35 = 36

at 11th in Lat 35 20 the sun at 29 23
 121 - 13 = 15 which is too great to be
 found in the Alman for which I calculate Distance

116	52	14	L	h m	Day
118	23	46			
119	55	04	L		
1	31	32			
1	31	18			
121	26	06			

at 8th in Lat 25 45 @ 25 22 54 13
 Day 85 - 29 - 00
 Lower 9 = 09 = 09

August the 15th decrease the distance between the
 star Alderbaran and the Moon the stars at 35 33
 the Moon at 46 46 Time 67. 15 00
 Time per ship 2 53 20 Time h m 8 83 31
 Watch too slow 26 00
 True time 3 19 20

August 15th at 13 44 42 26 Day 115 35 30 Lat 1 30
 at 19 00 Day 8 38 45

August 16th at 8 00 on the Line the sun at 29 51 38 04
 Day 103 43 30 Day 8 42 18

at 18 1824 in Lat 42 46 at 11 00 the sun
 at 54 45 36 55 Day 51 40 00 Long 47 18

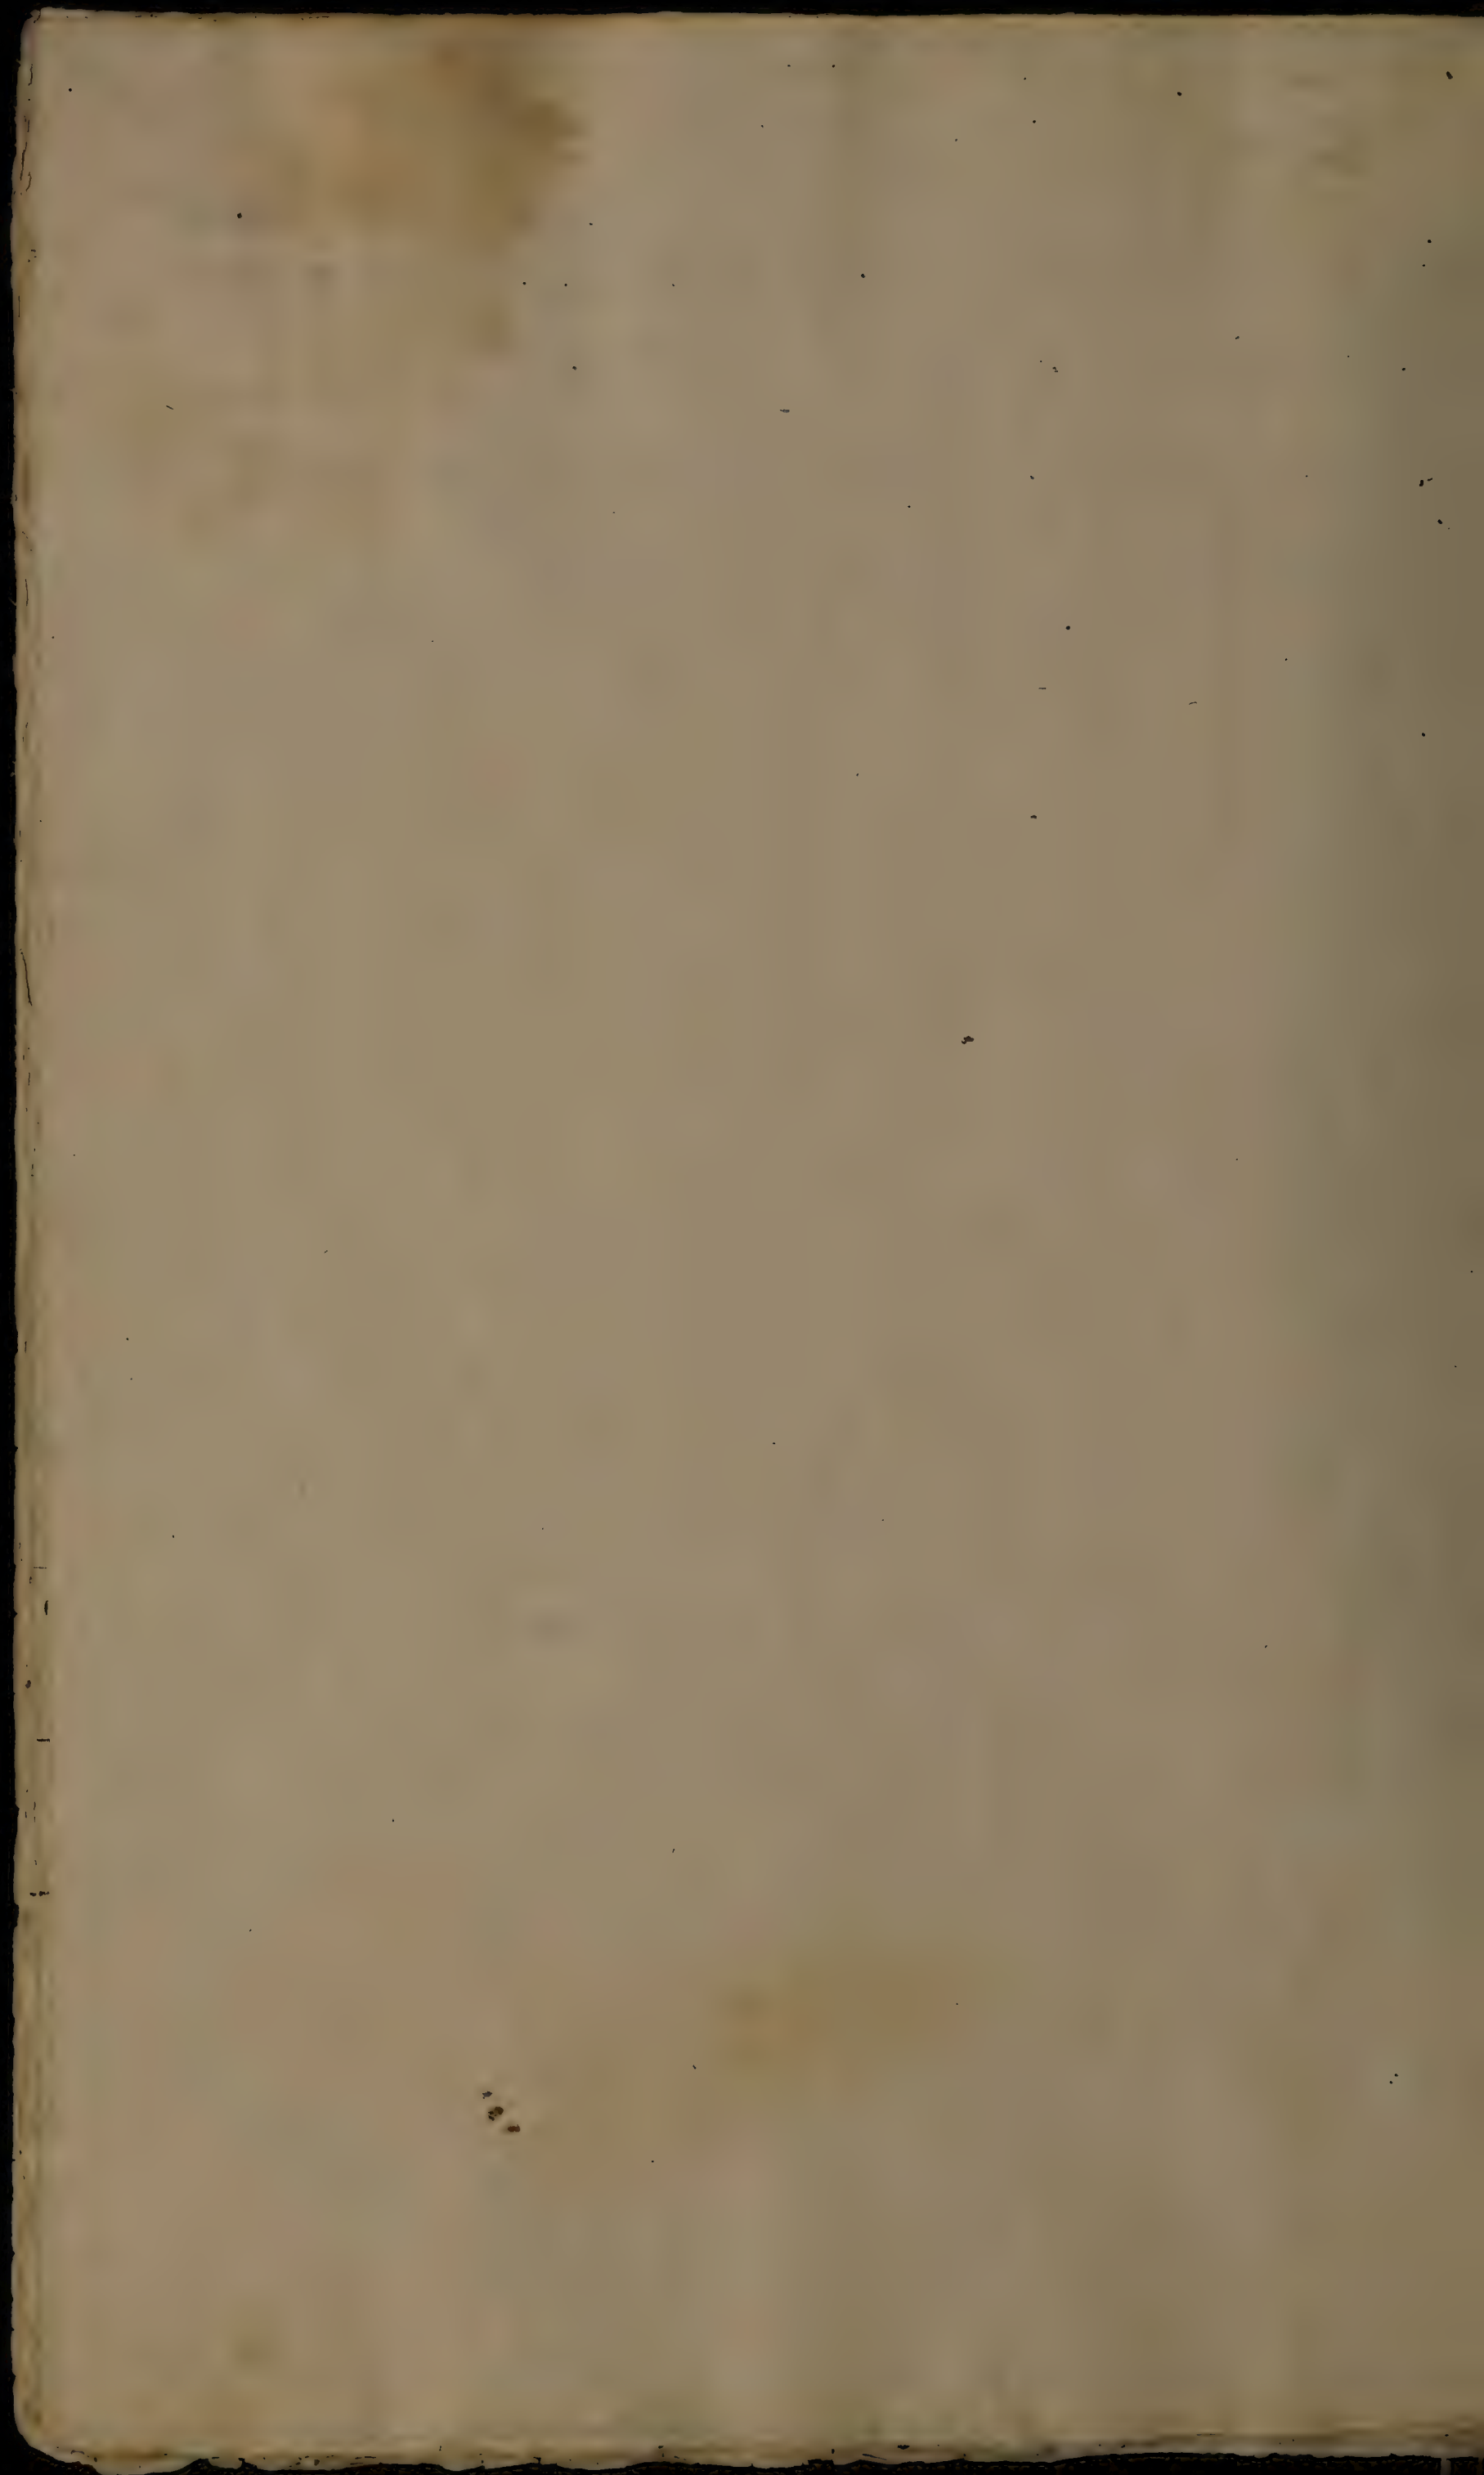

at 28 at noon in Lat 33 35 the sun at 68 33 38 45
 54 28 30 Day 2 45 23

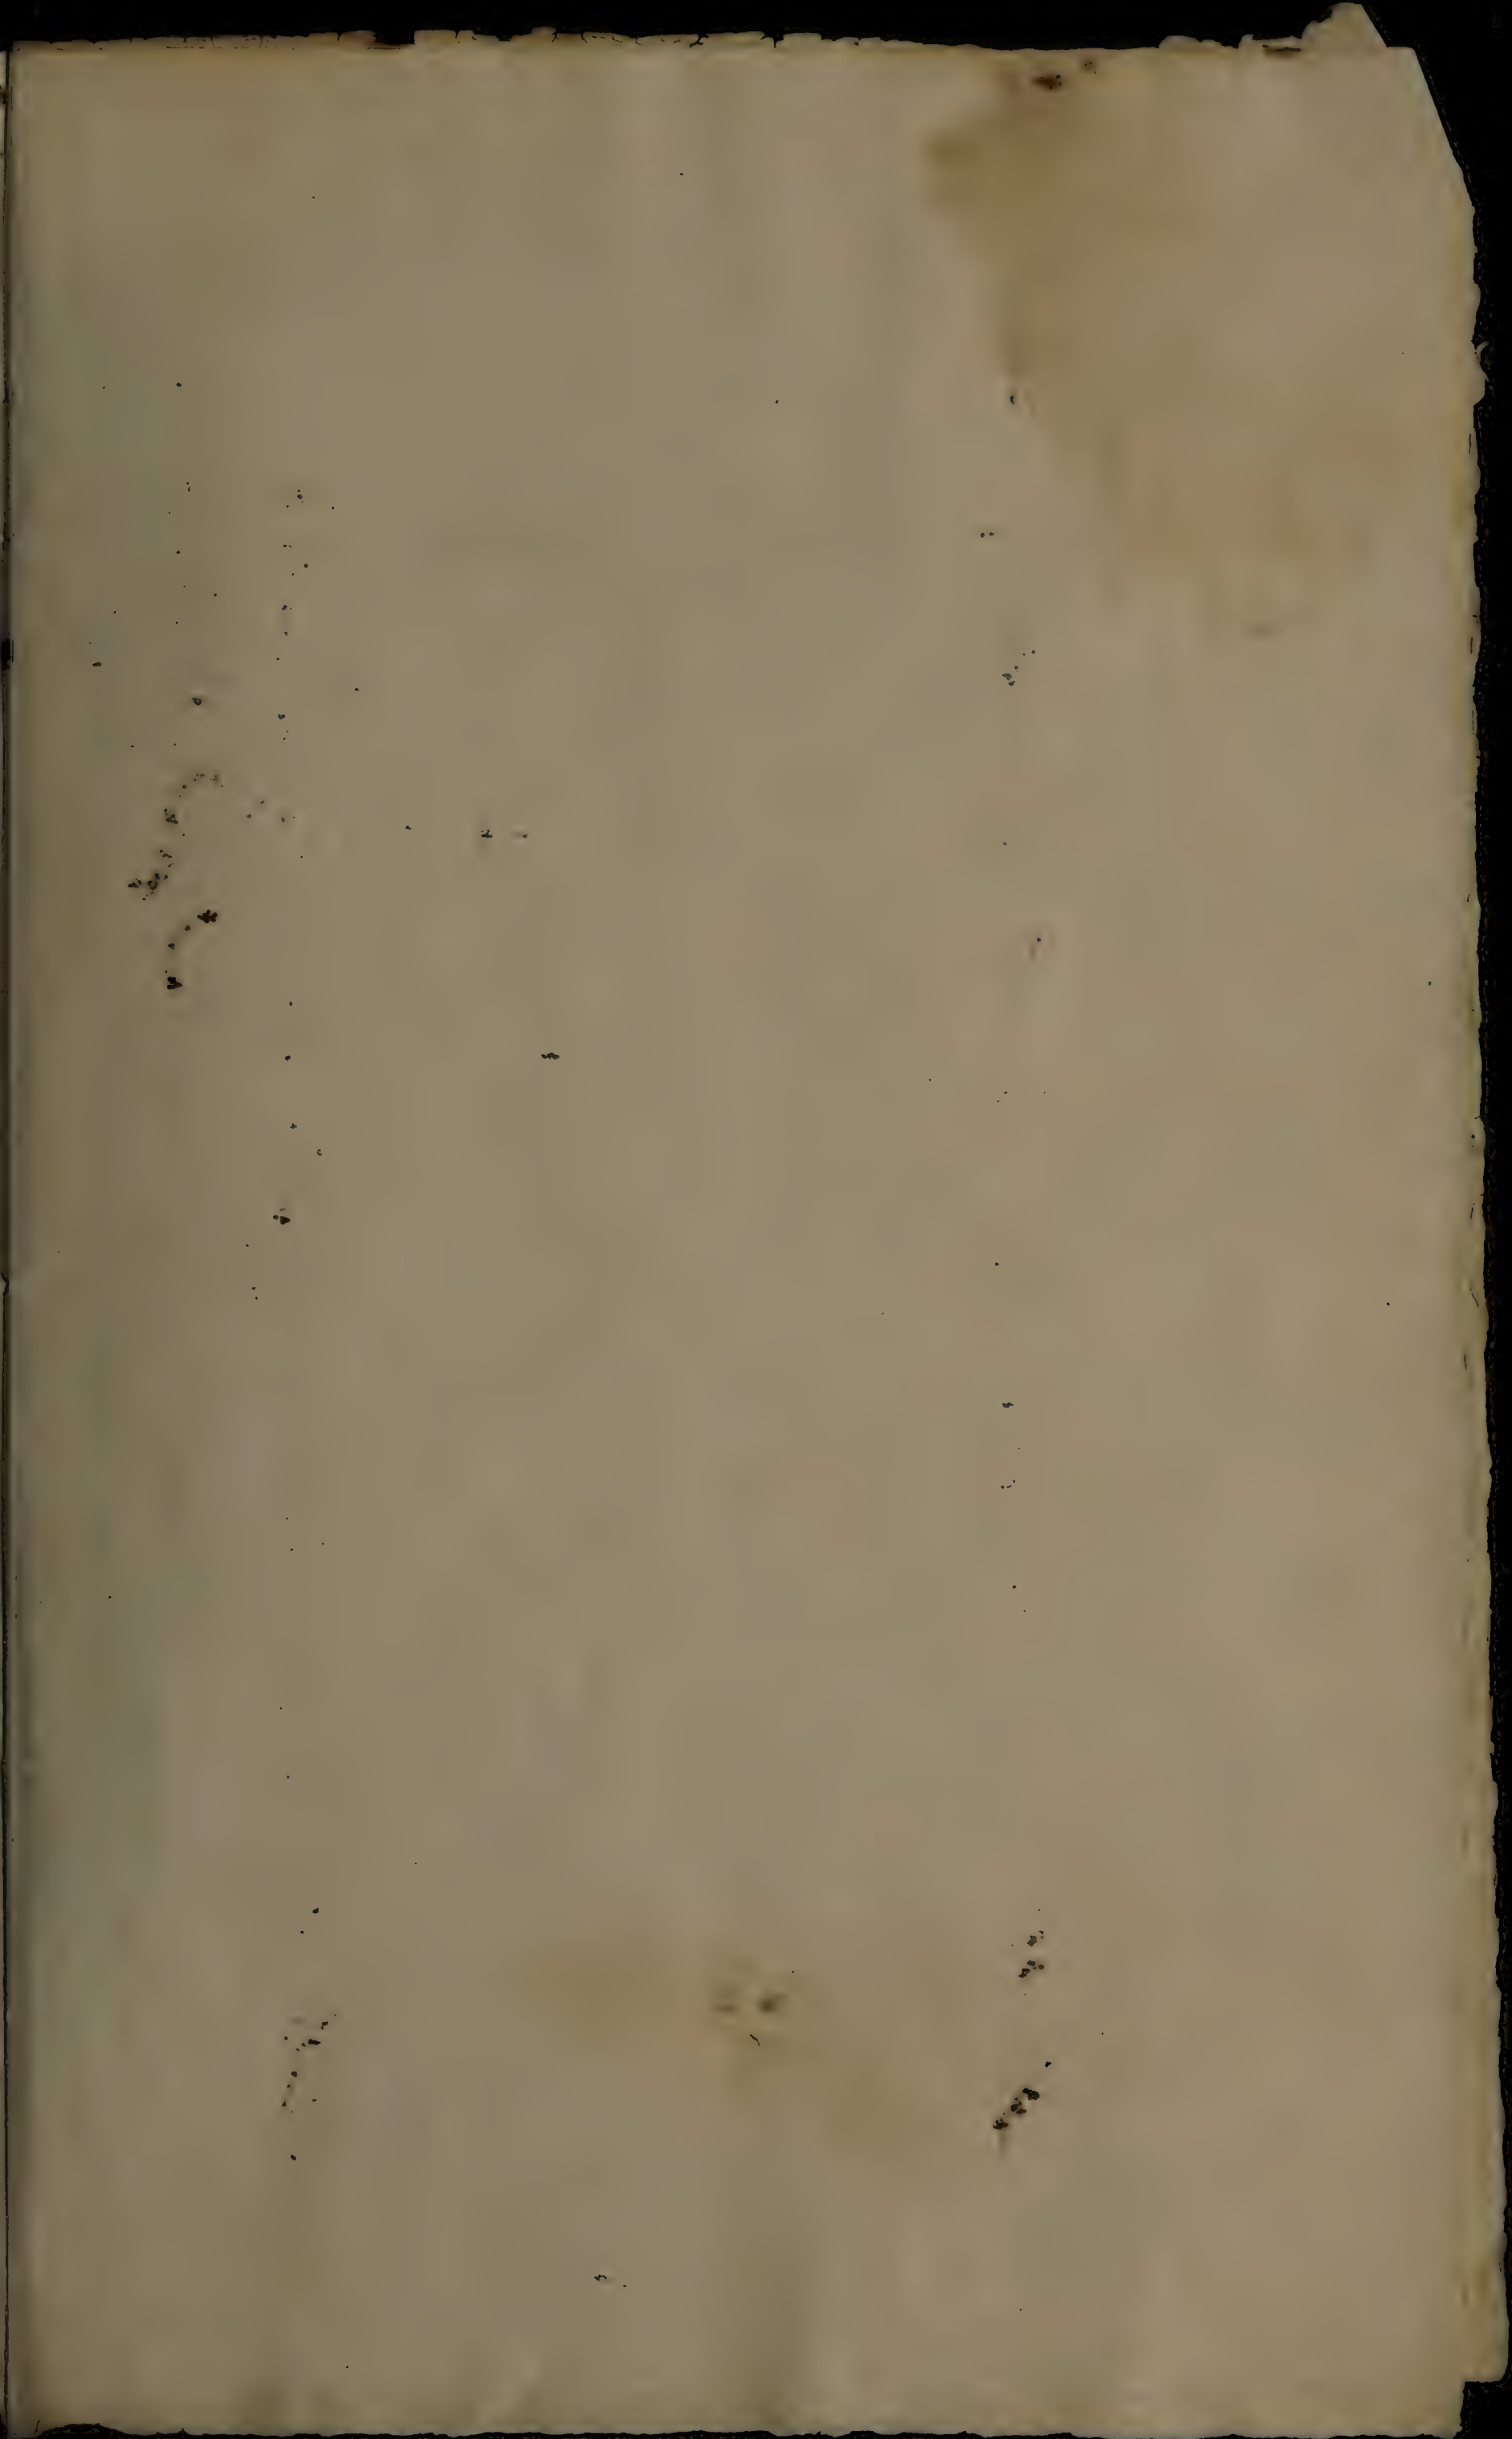

Oct 28 12 PM in Lat 32 = 16 21
the Moon 43 23 Long East 66 41 01

Nov 14 - at 10 AM in Lat 13 00 the Sun 1 1 16 45
Long 31
Avg distance 83 07 00

November 25 at 3 PM in Lat 12 15 the Moon 68 10
Avg 46 33 30

Ans 2 32 = 11 West from Greenwich
